1. Expansion of the capabilities of the U. S. Naval Photographic Interpretation Center is urgently required to exploit to a greater degree the vast body of excellent photographic material available in the TALENT Control System. To accomplish this augmentation of capabilities, involving both personnel and equipment, thirty-one (31) additional billets are necessary for PIC. Of these, 8 are photo interpreters, 14 photo technicians, 6 technical support, and 3 clerical or administrative billets.
